BENEDICTO ALDRIAN

GENETE RAY ALEXANDER MALVIN

About our app

The app is a game that enables you to use your memory and distinct an image from another. With the use of cards as a medium, players must find the similar image that is shown. the app will use cards as a medium for the images to be compared with. Our app has a twist that the cards are all facing backwards. The only way to view it is to flip them one at a time by tapping the cards individually. When a card is flipped the player will get one chance to tap another card, if the card has the same design they will stay like that in the rest of the game until the player is finished. If the cards are mismatched, they will revert to their original state.

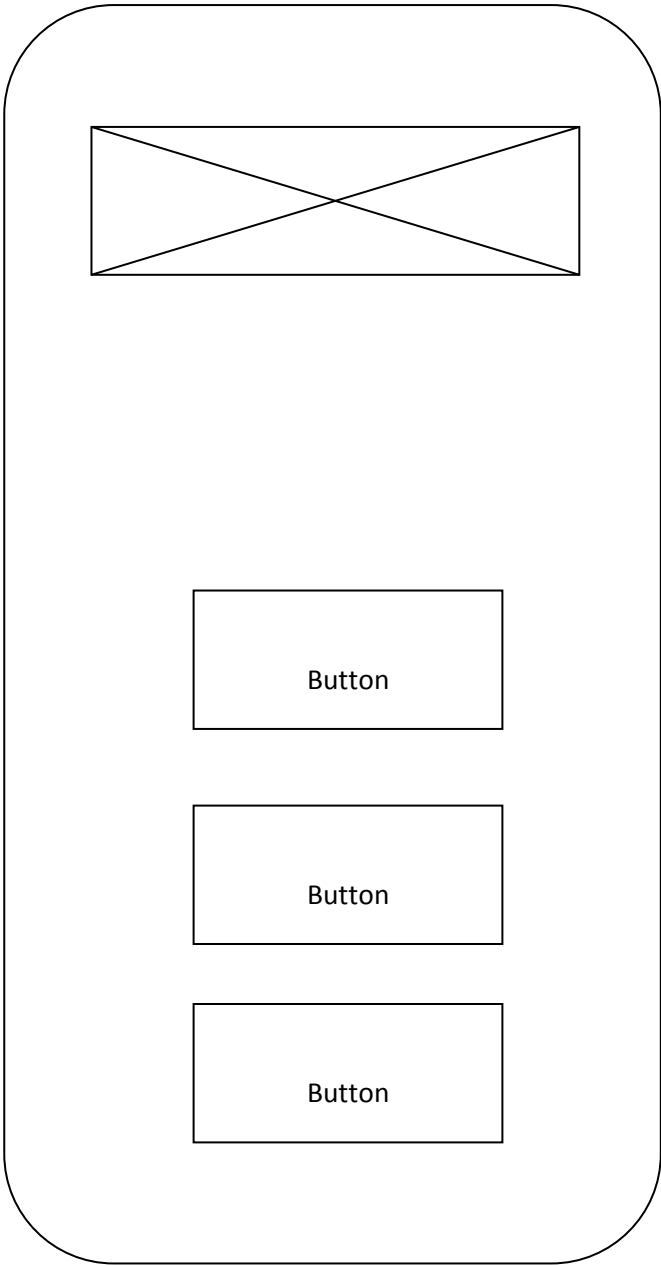

Purpose

The purpose of this game is not mostly for entertainment but allows the user to strengthen their memory and spotting the difference in an individual object as for this game are the cards. This allows the user to both entertain and improve their skill in memorizing and familiarizing.

Objective

To create a game that will entertain and improve a player's memorization and familiarization by using a simple game. This game will not only entertain but allows the user to hone their skills in memorization and familiarization. Our objective is it to be portable and easy to use while demanding little space in storage.

GAME

MOCKUP

When starting
the app you
will be
greeted by
the title
screen

Instruction

- The images are flipped so that you cannot see the images
- Tap to see what is beneath the card
- Find the pair of the card from the scattered cards
- The card will turn back to its previous state if the second card is mismatched
- The cards that found its match will stay open until all images have pairs.

Pressing
Instruction will
direct you to a
page that tells the
rules. You can go
back using the
arrow at the upper
right of the screen

Pressing start will
move you to the
difficulty setting

Tap your preferred
difficulty

The game will
start with all
the cards
facing
backwards

Your job is to
find the all of
the pairs

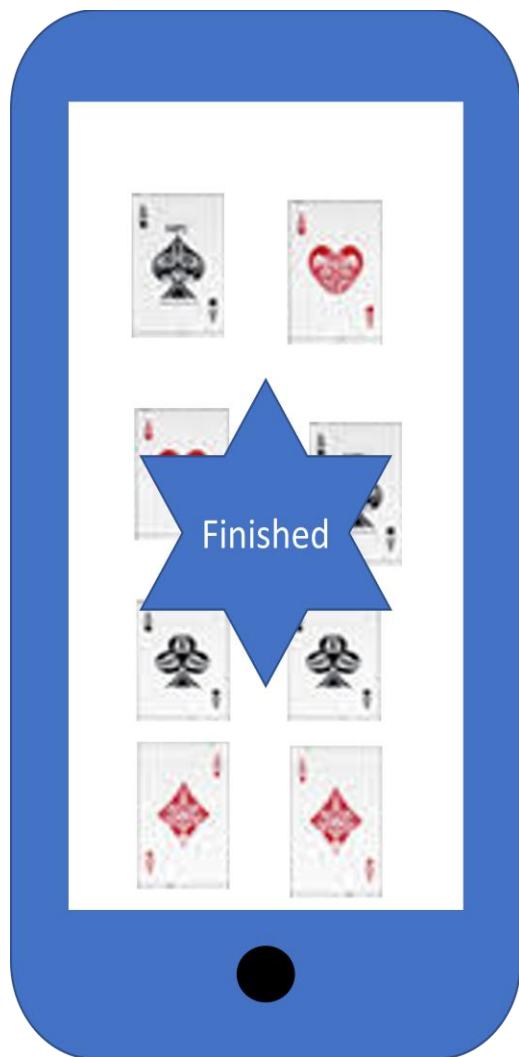

By tapping
card it will flip
and show its
contents

Look for the
similar card
from the
unturned
cards

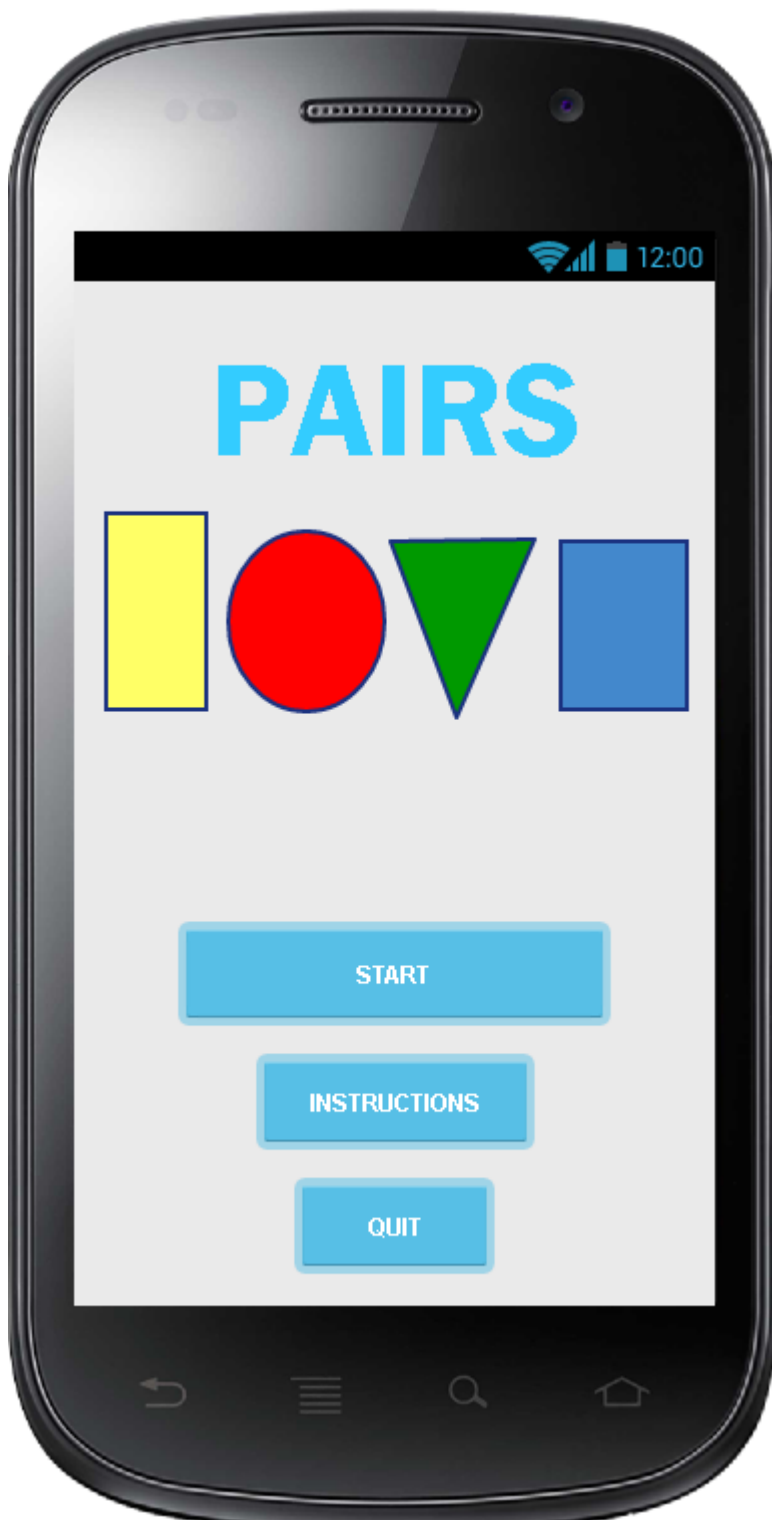

Note that if
the card is not
similar it will
return from its
original state

Paired cards
will not be
affected by
the mistake

The game will end after all
cards are paired
